

Connie Davis

Connie Davis, a nurse and genealogist, combines her passion for family history with her enthusiasm to support people to make meaning out of what they learn about their past.

Collaborative Genealogy

Connecting with ancestors enables us to learn more about ourselves and our connection to our family and history. I will support you to explore the secrets and surprises in family history as well as the triumphs and resilience of your ancestors. The result will allow you to share what you discover in personally meaningful ways.

Services

Genetic genealogy
Research projects
Results sharing via online platforms, story, and video
Support to understand results and impacts
Research skills coaching
Webinars, lectures and workshops
