

Connie Davis combines her passion for family history with her enthusiasm to support people to learn about genetic genealogy and make meaning out of what they learn about their past.

Diving into Genetic Genealogy

Genetic genealogy provides an opportunity to connect with ancestors. Working collaboratively enables us to learn more about ourselves and our connection to our family and history. I will support you to understand your DNA and explore the secrets and surprises in family history as well as the triumphs and resilience of your ancestors.

Services

Webinars, lectures, and workshops
Research skills coaching, one-on-one or in a group

Genetic genealogy research projects
Support to understand results and impacts

You can also find me at Your DNA Guide as Instructor and DNA Coach.
